WATCH OUT FOR FAKE SOCIAL MEDIA ACCOUNTS

Fake accounts are extremely common on social media platforms. They are often used for scams, to share malicious links and to spread misleading or unpleasant content.

**"Do not share
personal
information to
strangers online"**

STAY SAFE ONLINE

Protect yourself from cyber bullies

Bullying that occurs via digital devices such as mobile phones, laptops, and tablets is known as cyberbullying. Cyberbullying can take place offline in social media, forums, or gaming, or online in social media.

Cyber Harassment

Online behavior towards you can be considered cyber harassment if it makes you feel afraid or uncomfortable

Social Media Safety

Think before you post! Someone may use this information against you. Consider that you are sharing information and pictures with a complete stranger. Avoid sharing your current location (that is the location where you are, while online)
