

PAPUA NEW GUINEA'S DIGITAL TRANSFORMATION APPROACH

Digital Government through a Whole-of-Government
Approach

Steven Matainaho

Department of Information and Communications Technology

THE VISION

*Digital transformation that makes government more effective, improves service delivery, and fosters inclusive social and economic development because of a smart, networked and well informed society' – **PNG Digital Transformation Policy 2020***

DIGITAL TRANSFORMATION POLICY 2020 PILLARS

1 Digital
Infrastructure

3 Digital
Government

5 Digital
Skills

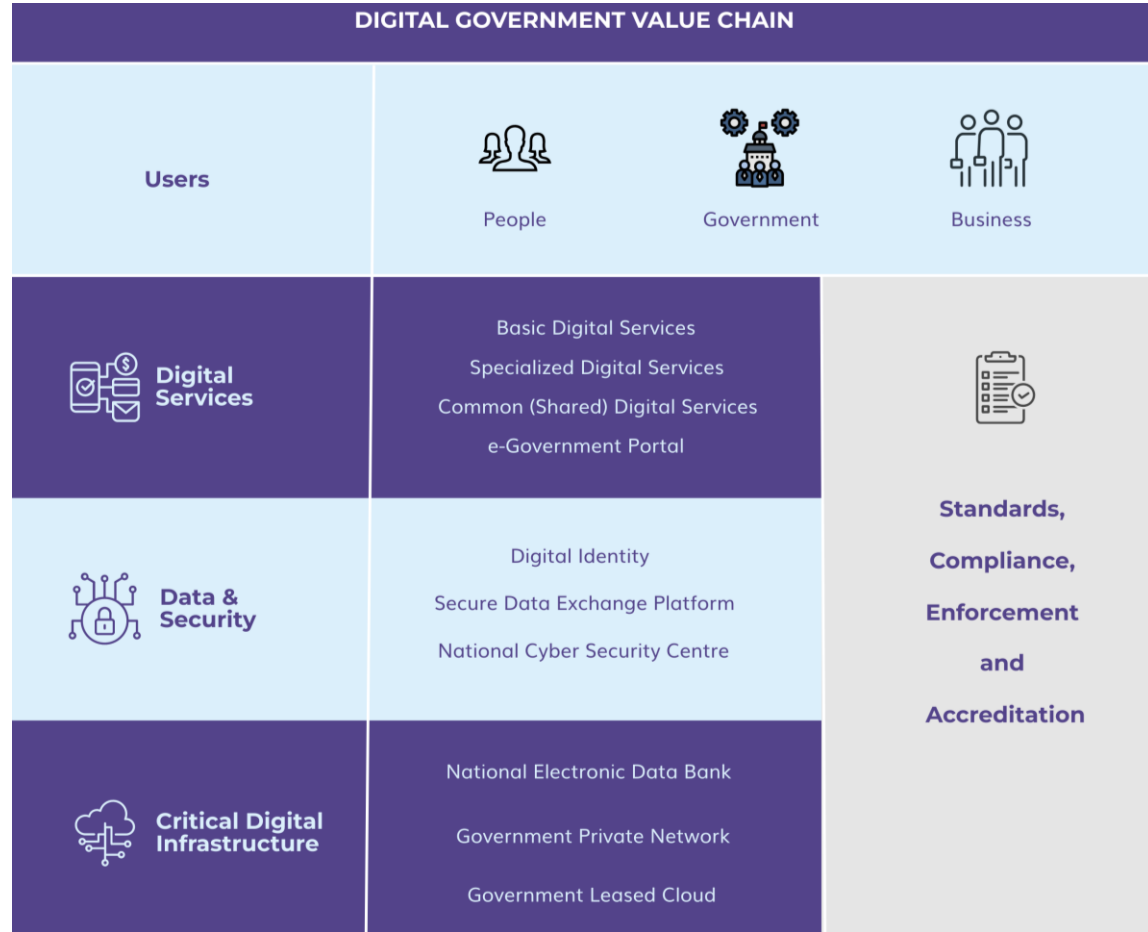

2 Cyber
Security & Safety

4 Innovation
Entrepreneurism

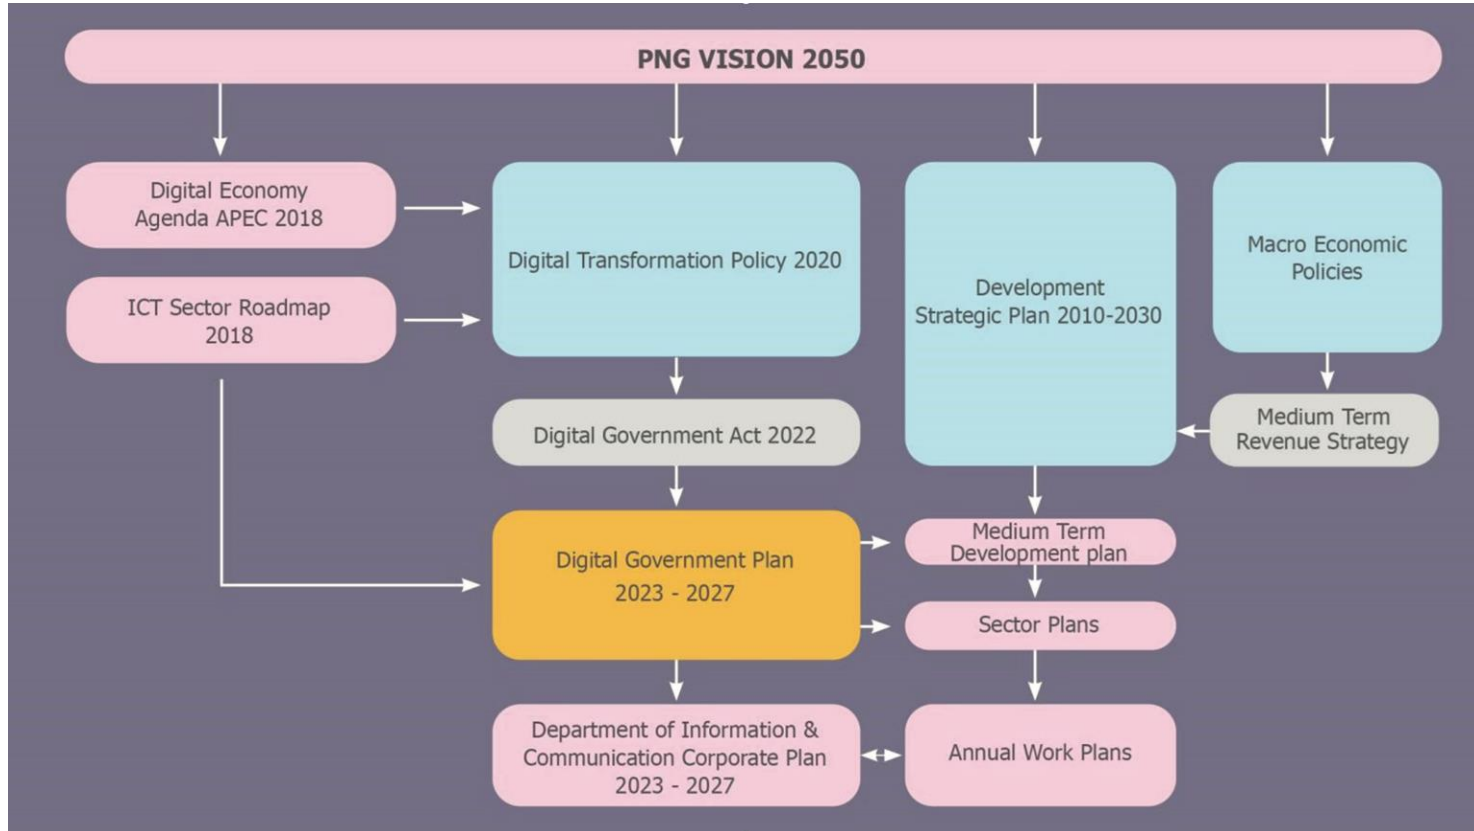

6 Financial
Inclusion

DIGITAL GOVERNMENT ACT 2022

POLICY ARRANGEMENTS

DEFINING GOVPNG TECH STACK

A framework to guide the use of technology therefore enabling a digital government for Papua New Guinea'

Better Experience

enable fast, simple, and easy service for people, government and business

Whole-Of-Government Approach

enable seamless integration across all public systems and standardising where necessary

Smart and Fast Deployment

adopt 'building block' approach to reduce investment duplication and scale faster

Pacific First

Built to support and share for a unified pacific.

DEFINING GOVPGN TECH STACK

6

EGOVERNMENT PORTALS

Online platforms that provide a single point of access to various government services: (1) Citizens' Portal, (2) Government Portal, and (3) Investment Portal (4) Students' Portal

5

DIGITAL SERVICES

digital services provided by various government bodies to citizens and businesses

4

SHARED MICRO SERVICES

modular services that each perform a specific function enabling scalability, easy maintenance, and fast deployment

3

SECURE DATA EXCHANGE

allows different government systems and applications to communicate and share data with each other securely and efficiently.

2

**HOSTING AND COMMS
INFRASTRUCTURE**

Cloud-based government data and applications hosting and a secure network communication and data transfer. Core components include: GovCloud, GovNetwork, Satellite System

1

**CYBERSECURITY AND
GOVERNANCE**

Standards, Regulations, and procedures that govern the use of technology within the government. This includes protecting government systems, networks, and data from cyber threats.

Adopting Building Blocks to Accelerate W-o-G Digital Transformation

SILOES

Siloed investments and duplicative efforts by development partners promote fragmented digital governance and silos in partner countries.

FUNDING

Challenges in procuring and implementing affordable IT solutions persist, as do challenges in creating the necessary capital to invest in ICT infrastructure projects.

SCALING

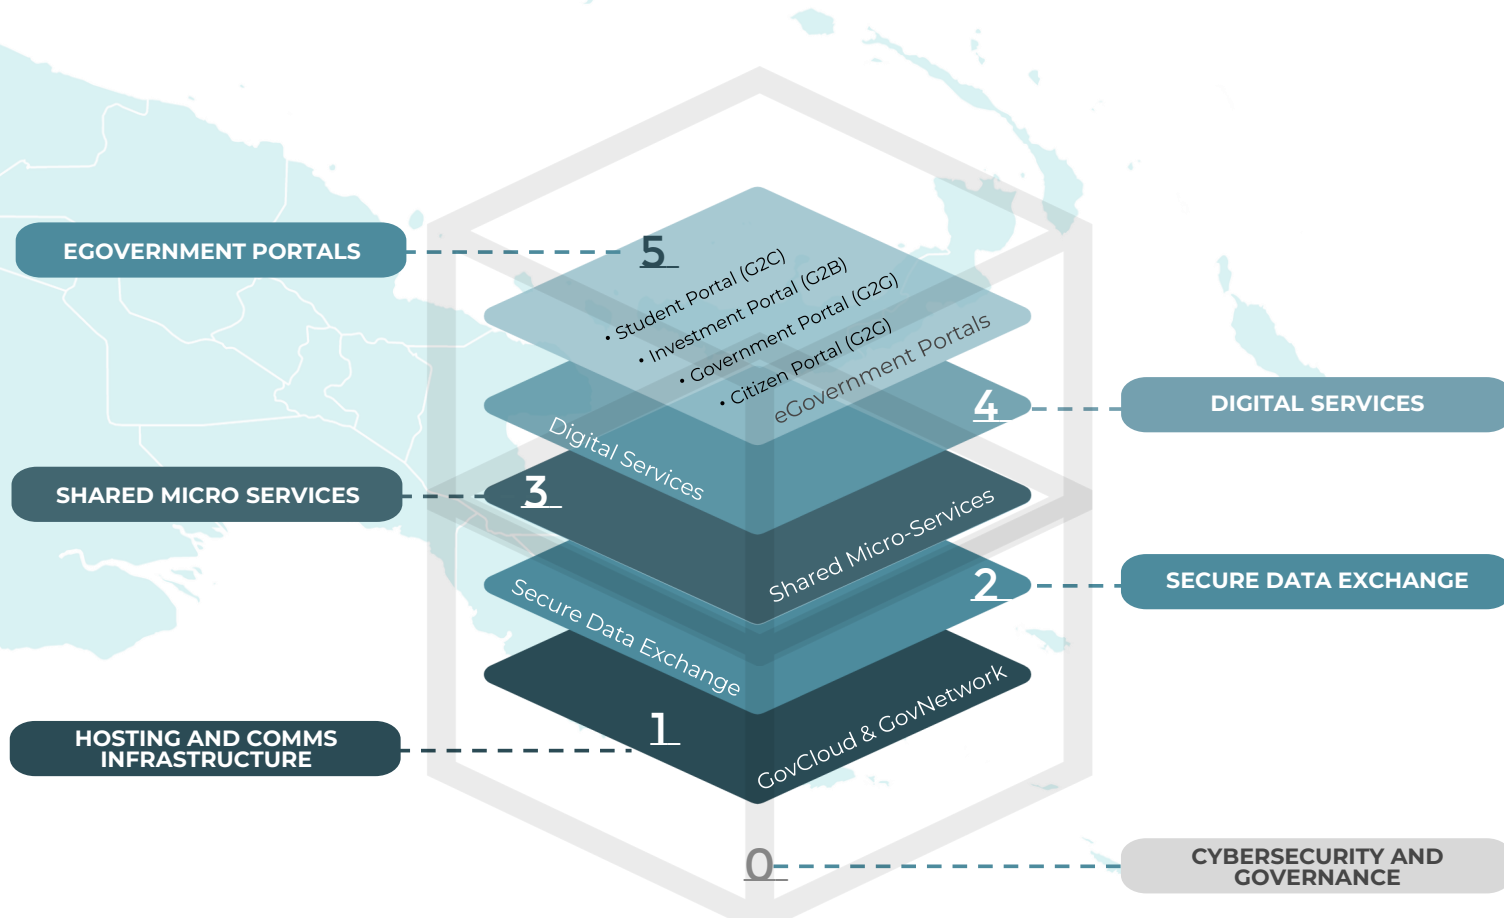

Huge challenges exist in **adapting and investing in projects at scale**, particularly around the rollout of physical ICT infrastructure, the deployment and use of common data platforms.

COORDINATION

Problems in coordination commonly occur in **aligning ICT ministry work with that of other agencies**.
